

Preventative Maintenance: What a Pilot Should, May, and May Not Do!

Non-A&P pilots are permitted to perform a surprising number of preventative maintenance tasks on their aircraft. Airworthiness Inspector Jim Pool and FAASafetyTeam Program Manager John Sibole, from the Harrisburg FSDO, will discuss how, within the bounds of the regulations, pilots can make their aircraft better and safer through preventative maintenance. Mechanics in addition to Pilots are encouraged to attend. Click on the link below and register TODAY.

Directions: The meeting will be held in the Smart Avionics hangar at Donegal Springs Airport.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
